1970-79 CT/LI/NY Harbor/lower Hudson River #2 used **a white number in a solid red dot or oval** to show dealers. In 1985 Chart No. 3 had two versions (3T and 3F)-one featuring TX and the other FL.  
The 1982 & 85 5 regional maps no longer cover the Great Lakes, the Miss River, or NC to Georgia.  
1988 and 91 still had four regional maps but Norfolk to Jacksonville added to the FL to TX map.

1938-41, 47-51, 55-64, 66-77, 79, 82, 85, 88, 91 maps list dealer names & services.  
In the 1930s they were printed on a side panel or inside the cardboard cover. In the 1940s, 1950s, and in the early 1960s they were put in columns at the side edge of both sides of the map. Canadian dealers were included starting in 1957. From 1966 until 1991 the edge columns used several color backgrounds with each state or province using a different color background than states above or below it. 2 different pictures of the Shishole Bay Marina in Seattle were used from 1968-79. The 1982 maps used a picture of the Bahia Mar marina in Fort Lauderdale. The 1985 maps used a picture of the South Shore Harbor marina in League City, Texas (Chart 3T), and other regions used the Shishole Bay marina. .

The 1970-77 Great Lakes/Miss. & Ohio Rivers show a dealer on Lake Minnetonka in MN.  
Dealers in the Bahama Islands are shown only on the 1970-77, 79, 82, & 85 maps and listed on the edge. The FL maps before 1970 and the 1991 issue included a Bahamas insert that did not show dealers. 1966-85 listed dealers along the map's edge that were shown on the map and also listed dealers "beyond the area of this map. These included coastal AK & HI and non-coastal dealers in found on rivers, lakes, and reservoirs. The "beyond" marine stations were not shown on any maps. In the 1970's Texaco had coastal and beyond dealers listed in 49 states (none in coastal NH), BC, ON, QU, and Halifax-NS.

Every regional map in a multiyear series may not have been issued every year. The dates are based on information when each series began and ended. Notable exceptions are a 1962 Gulf Coast No. 6 that features Lake Pontchartrain to Pensacola and lists that on the title cover.

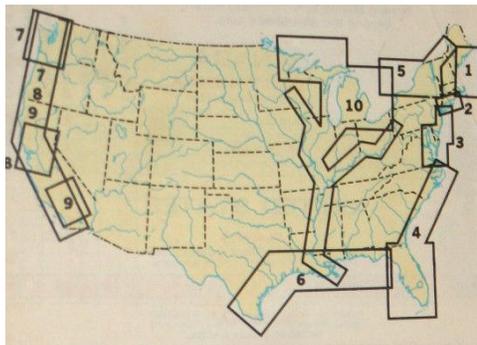

In 1964 Texaco Canada Waterway Service based in Vancouver put a No. 11 chart with title Pacific Coast Juan de Fuca Strait to Dixon Entrance. The 1964 US Texaco maps still only listed the 10 US titles on their back cover. This is the only known year Texaco Canada issued a unique cruising chart title. The Dixon Entrance is between the southern tip of the Alaska panhandle and Prince Rupert, BC. It does use **solid red stars with numbers under them** to show dealers listed on the edge of the map.
