MARATHON MAPS

NOTES:

1. All maps are Rand McNally, with the exception of 1938, 1939, and 1940, which are Midwest Map Company.

2. During the years 1951-1958 (and possibly other years), Marathon had a travel bureau, which issued its maps.

3. "OUT" maps: In 1936, 1950-1969, and possibly other years (not including 1938-1942), Marathon issued a different style of map for its city, regional, turnpike, and out-of-marketing-area state maps. These were usually less colorful than the regular marketing-area state maps.

4. There are three styles of maps issued between 1977 and 1988 that are not pictured.
