Master List of Official Highway Maps State of Wisconsin

Notes: Various sources list the first map published as 1914, 1915, and 1917. The earliest map in the Wisconsin DOT collection is the 1917 edition. In addition to the maps listed for 1924 and 1926, a note on these maps indicates that three other variations were printed: a "pocket highway map," a "cloth mounted highway wall map," and a "highway service map, issued weekly from May to October."

The 1982 map is completely undated. The 1983-84 map has a picture of a sailboat on the back side, with "WS 3848" printed on the sail. According to the Wisconsin DOT, this is a code for the date, 1983-84, although this same code appears on the 1985-86 map, which is dated in the legend.
